PROFESSIONAL EXPERIENCE

ELIKYA ACADEMY

Full-stack web developer

01/10/2021 - 30/09/2024

As the only developer in the company, my main task was to assess the needs of the organisation via a set of specifications and to produce a suitable solution. My tasks were to :

- Set up the company's complete information system independently/self-training
- Manage hosting and deployment (CPanel, Vercel, Github Actions)
- Managing and administering databases (MySQL)
- Develop front-end, back-end et full-stack applications
- Improve the company's online visibility and streamline administration management processes

Actions taken :

- Creation of 8 applications et 4 databases
 - Back-end (NodeJS / ExpressJS)
 - Central API for the information system with a microservices architecture
 - Authentication, CDN, Notion API, Cloud, Media transfers, E-mails, PDFs generation, ...
 - CDN in communication with a cloud to distribute media content
 - Front-end (NextJS)
 - General company site with personalised registration services, emailing and data display in communication with the API
 - 3 other sites giving details of related activities
 - Full-stack (NextJS)
 - Extranet to manage courses, students and teachers for the administration
 - Back-office/administrator panel for modifying site content
